New Orleans Market.

New Orleans, November 7.—Corron.—The market opened this morning with a moderate inquiry, and continued rather manimate from the opening to the close of business. The majority of holders were evidently anxious to realize, and generally disposed to submit to concessions, but most buyers were reductant to operate, preferring to swait further developments, and the sales were consequently restricted to 2100 bales, nine brokers participating in the business. Prices disclosed no quotable variation, and although good staple descriptions commanded outside figures, still the bulk of to-day's transactions were at rates indicating a strong tendency to inside quotations. Referring to the above remarks, we repeat as follows: Ordinary, 39a31c; Good Ordinary, 33½a 34½c; Low Middling, 35½a36½c; and Middling nominal at 38c.

Liverpool Market.

Liverpool, October 26.—The effects of a bad harvest and fears of high prices of food begin to be felt upon the general trade of the country. The abundance of money seems to have no counteracting influence.

Breadstuffer,—French buyers have bought largely of wheat in the Eastern countles, and this has given our market a fresh impotus. The advance varies from 1a3s \$\frac{2}{3}\$ qr. Potatoes show more and more the effect of wet weather, and are extensively diseased. At sea, from New York for this port, about 5000 qrs corn and 1500 bbls flour. Tuesday's market was well attended. Wheat was 2a3d dearer. Flour advanced 6d \$\frac{2}{3}\$ seck. In Indian corn a fair amount of business was done at an advance, mixed realizing 31s 6d \$\frac{2}{3}\$ qr. To-day there was a fair attendance, and full prices were paid for wheat, in some cases even a small advance. Flour, on the other hand, was more difficult of sale, though not questably lower. Indian corn, owing to the rise in New York, was excited, and advanced to 33s \$\frac{2}{3}\$ 480 lbs.

Actual export 27,413 bales. At sea from the United States 15,000 bales, and from tine East 106,000, against 60,000 and 217,000 same time last year. The market to-day is more active; sales 12'000 bales. Manchester—There is a very gloomy tone, especially among manufacturers, and short time is already commencing. Spinners are in a somewhat better position. The business of the week is very small, and prices of yarn are generally 1d lower. An irregular decline is quoted in cloth, without leading to business of any extent.

Other Autolors Sugar pretty steady, but quiet; Bra

business of any extent.

OTHER ARTICLES—Sugar pretty steady, but quiet; Bra
zils a little casior. No change in Molasses; 1000 puns
chiefly Cardenne at 12s 6d for export. Coffee dull. Rice
in demand, but the high prices asked check business;

THE CLEANER AND CONDENSER ATTACHMENT THE CLEANER AND CONDENSER ATTACHMENT to an ENTIRELY NEW FRATURE, and a great acquisition to the Gin proper. It is vory simple in construction and operation, and requires no appreciable force to drive it. It serves to separate all the vast amount of fine dust and sand from the ginued cotion, which, by the ordinary process, would be deposited with it, and be packed in bales for market. The Condenser also prevents the possibility of firing the ginuing buildings, even if the Gin itself could generate fire which this Gin cannot do. It occupies but little space, and may be operated in almost any building, however small, and when desirable may be used in the open field. It is enlirely portable, and, with the Gin, forms A COMPLETE GINNING ESTABLISHMENT OF TESELF, which can be moved from

and, with the Gin, forms A COMPLISTE GINNING 193-TABLISHMENT OF ITSELF, which can be moved from plantation to plantation.

The saving in the creetion of buildings such as are re-quired for these Gins and Condensers over the cost of those required for other gins, will far exceed the cultre outlay for those improved Universal Cotton Gins and Condensers complete for use.
